

CELLPHONE MISERY

FOREWARD:

All of these synumbric eminonts (pomes) were written, either, in the air, on the flight from PDX to PHX, or, on the ground in Scottsdale, AZ, either, poolside, at the UTELL Scottsdale Resort Hotel, or, at the Starbucks across the street at the Seville Stripmall.

Dedication:

I would like to dedicate this work to the housecleaning staff of the Scottsdale Resort Hotel, The Lexus dealers of Arizona, Starbucks, the Printing Unions of America, those surgeons that perform breast-enhancement, and Nokia, Verizon, and the Blonde Amoeba Beer Company which sponsored this tour of urban palm tree mutations studies, and most importantly my wife who paid for my amoeba cellphone breast enhancement.

souls 'in glory' suddenly need help,
their eyeglasses are the heavy glass

debate in Chihuahua, perhaps. These
glorious souls sit before their desk-
hearths, black branches joining, and
unjoining around them, in fact, they are
miles up into the sky beyond the thick
layers of emotion which fertilizes the
math of the mattes.

A 20x20 grid of dots. The dots are arranged in a sparse, irregular pattern, with some rows having more dots than others. The pattern is roughly rectangular, with the dots concentrated in the center and fewer dots towards the edges. The dots are small, black, and evenly spaced within each row.
